Hi Dan!

Per Kerry's request, I'm working on a map for the "no skateboarding sign" project. The map will show the Walk of Fame and the number of proposed signs for each block. The group from our last meeting thought spacing new signs every 50-feet was a good measure.

See below, I have provided an estimate of how many signs we would need per distance-spaced if we decide to extend the spacing between each sign:

- 50 feet: 272 signs
- 100 feet: 136 signs

Let me know if you have any questions about this, I think Kerry would like to settle on a proposed # of new signs before our next meeting with the group.

Thank you!

Matthew
